Chapter 4: A Night to Remember

Now that everyone was gone and it was just me and Noah, my mind was constantly busy trying to figure out everything that went on tonight, and whether he was joking about any of it. It was my most sincere hope that he wasn't, but for some reason, I still couldn't shake my thought about him being straight, even considering what we did in the closet not only a couple of hours ago. After a while of letting the anticipation build, I finally had enough courage to talk to him about everything that went on.

"So, um… about the game –" I started to ask nervously.

"Yeah, I meant what I said," he replied, cutting me off, almost as if he knew what I was going to say. He often did; we were just in sync like that.

"And, um… about the stuff in the closet—"

"Same thing – I meant all of it, and I think you know how I found the whole experience."

"I do – I *definitely* do – but um… how did you know?"

"What do you mean, how did I know? How could I not know? I see how you've looked at me in the halls at school for quite a while now, so I knew something was up. I just needed to figure out what it was, and the wink you gave me before your speech today made it crystal clear."

What he said had a distinct ring of truth to it. While I was walking between my very packed teaching schedule, or to and from the lab where I was working on my research, whenever I'd see him in the hallways, I'd always stare at him like a puppy craving attention. He'd even occasionally distract me from my lectures if I saw him through the window of the lecture hall, though I didn't think he ever noticed. Of course, I was wrong: he noticed everything, even what I thought was a completely inconspicuous wink I gave him on stage today. He saw right through it all.

"And don't think I didn't notice you almost kissing me on the stage. You should have went for it, then I would have been your first."

"You caught that?" I asked him, voice shaky and shocked.

"Yeah – it was obvious. I think the whole audience caught it. But how could *you* not know? I've been giving you *very* clear signals all night, and you're still not picking them up," he continued.

"No – I caught *some* of them… I just thought you were pulling some sort of cruel joke on me. I didn't know they were genuine."

"*Of course* they were genuine – I never joke around when it comes to relationships and stuff like that. To be perfectly clear for that beautiful, socially deprived nerd brain of yours: I am into you, Cameron."

"But aren't you, like… as straight as they come?" I asked, jokingly.

"Not really, I'm more bi than straight, but I've always been attracted more to guys." Hearing him say he was into guys made the desire I'd been trying to hide surge up again. There was a chance – however small – that I'd be able to finally live out my deepest crush.

"But what about all the girls swooning over you?"

“What about them? I’m the captain of the damn hockey team – of course I’m going to have girls running after me. I even have guys running after me. ‘Comes with the territory, but it doesn’t mean I’m into them. Sure, I’ve been with some of them, but nothing serious ever came out of it, mostly one-night stands. They were with me because of *what* I was, not *who* I was. I can tell you like me for who I am, and I know you don’t really care for athletics, so you don’t really care about what I am.”

“So, you’d actually consider…” I hesitated. “… being *more than friends*?” I finally built up the courage to ask.
“Of course,” he replied, “I’ve always liked you as more than a friend.” He paused before looking me up and down with his signature grin on his face, biting his lip. Eventually he said, “Does that mean you might want to… try some stuff?”
I blushed a bit and shyly said “Of course it does – I’ve wanted to try stuff with you for *years* – but I never asked because I didn’t know how you’d react. I didn’t want it to run our friendship.”
“To be honest… I’ve felt the same way for a while now. Trust me, it wouldn’t have ruined anything if you would’ve come forward earlier. I would’ve been open to experimenting. Let’s try some things and see where we end up.”
“So, you want to have sex with me?”
“Sure, if that’s what you want. I want to make you happy: tonight *is* your night, after all.”
“That’s what I want… that’s what I’ve wanted for so long, but…” I hesitated.
“What’s wrong? Aren’t you excited? I’m giving you the opportunity of a lifetime here.”
“Yeah, of course I’m excited, and you are giving me *quite* the opportunity – the opportunity I’ve waited so long to get, but… I want you to be the bottom.”
“So, you think you’re a top?” Noah laughed, almost like he was making fun of me.
“Interesting…” he said, before looking me up and down again. “Alright then, I think that can be arranged. Let’s see what you’ve got,” he said seducing me, “but if I’m going to be your bottom, I have some… let’s just say, *special requests* for you to consider.”

“Oh yeah? Like what?” I asked, my mind wondering what he could possibly want.
“It’s kind of embarrassing, but…” he said slowly as he leaned into my ear and passionately whispered, “I want you to tie me up and blindfold me” before backing away, his face looking scared to hear what I would say.
“That’s… interesting…” I said slowly and quite shocked. I was trying to think of the logistics of it, and why he’d want to be tied up. “I think I can manage that,” I finished, just as seductively as he was, while I caressed his face to give him some reassurance. I instantly saw that grin come back.
“So, Romeo, are you going to take me to your room or what?” he asked, playfully in a romantic tone of voice. It seems that giving him what he wanted made the fire within him burn brighter as well.

I stepped towards him and took his hand, walking him to the stairs. When we reached the bottom, I asked him, “Can I carry you?”
“You don’t need to ask – of course, I’d love to be in your arms, baby,” he responded, laughing, before giving me a small kiss. I swept him off his feet and held him. He made a noise that I can’t describe – it was almost like he was cheering but was also shocked by my motions. I could tell he liked it by the giant smile he had on his face, so I didn’t ask about it. He crossed his legs and made them dangle down from my arms before wrapping his arms around my neck. We started kissing just like we did in the closet as I brought him up the stairs to my room. I stood outside the door, about to enter, but he pulled away and stopped me.
“Before we go in, there’s something else I want to ask you—" he hesitated.
“Oh yeah, what’s that?” I asked, giving him some reassuring kisses on his forehead.
“Well—" he blushed, embarrassed about what he was about to ask, before finally asking, “once we’re in that room, I want you in charge. You can do whatever you want to me. You can use me however you want. Can you do that?”

Holy shit, I thought. There was no way that the captain of the hockey team was about to let me top him, let alone be my submissive at the same time. “You want *me* – the shy nerd… to dominate *you* – the star hockey player? Are you sure?” I asked, surprised, almost hoping he was joking.
“Absolutely – I’m sure,” he replied, almost instantly, and as confident as he was when he thought he was going to win the MVP award at this year’s awards banquet – which he did win, of course.
“Alright then, I guess I can try…” I said, almost sheepishly, scared about what was about to happen between us, given that I was never the dominant type – with anyone, let alone with him. I opened the door, softly put him down on the floor, and closed the door again as if I wanted to prevent anyone else from entering – even though it was only the two of us in the house. He walked right over to the bed, looked at me with puppy eyes, and quietly said, “What do you want me to do?” At first, I didn’t know what to say – I’ve never done anything with anyone after all, and this change of personality – it caught me off guard. *Would it be too forward for me to just ask him to get naked? Shouldn’t there be foreplay before that? Was the closet our foreplay?* I thought, fidgeting with my hands like I do when I’m nervous. “Oh, don’t worry – I’m yours right now. I’ll do anything you want” he said sweetly, almost like he knew what I was thinking, and as if he was trying to reassure me.

“Well, for a start, those clothes won’t be of any use for us, so why not start there?” I said.
“Oh come on, is that all you’ve got? Be dominant! Control me! Make me your submissive!” he yelled, before returning to his submissive role, willingly saying “Sure, I’ll strip for you, master.” He started to slowly take off all his clothes. Watching in amazement as he took his shirt off, I could see his well-toned abdomen, which was much more beautiful than I could ever imagine. I was able to get a small peek in the closet but seeing it in its whole glory in the bright light of the

moon coming through my bedroom window – was something to behold. His skin tone was even all through his body, like a golden marshmallow – that light golden brown it turns when you perfectly cook it. As he slid off his pants, I gazed with amazement at his perfect body, with not a hair in sight. I shifted my gaze to his dick as he took off his underwear, which was already a bit hard, almost like he'd had the same thoughts I did all these years. Based on that sight alone, I started to believe everything he told me tonight – from all the flirty comments to everything he said prior to us coming up to the bedroom.

"Now what?" he asked.
"Socks too – let's see those feet of yours," I demanded. I've always wondered what his feet looked like – were they chapped from all the time he spends in his skates during practices and games, or would they be the perfection I'd always hoped they were?
"That's more like it! You're such a kinky little nerd, aren't you! I love it!" he said as he sat on the bed and willingly took off his socks, underneath which lay his perfect feet – the feet I'd dreamed of having all to myself for years. He held his feet out to me so I could see his smooth soles, and said "You like what you see?"
"I do – I really do. You're perfect in every single way, aren't you?" I said, teasing him, both of us laughing.
"You bet I am!" he joked with me.

"Lay down, arms and legs out," I almost barked at him, embracing the dominance I've never had the chance to experience. *Wow - he's really enjoying this. Is he really a sub? Am I really a dom?* I thought. You know what? I think I'm starting to like being the dominant one: why, I don't know, but I think it's been building inside me with no outlet for me to express it until now. I'm kind of glad Noah let me dominate him. He slowly laid back in the bed and willingly spread his arms and legs out to form an X shape with his body, with an expression of delight on his face.
"Like this, master?"
"Just like that, *good boy*" I praised him, taunting him as I softly ran my fingers along his skin, his body shivering in response. He had a smile on his face that made me think he liked being called a good boy, something I'll have to remember.

I started getting some long towels I had laying around the room to use as ropes to tie his wrists to the posts of my bed. He leaned in towards me while I was tying his first wrist to the bed and whispered gingerly, but also extremely seductively, "Tie me up nice and tight – as tight as I am." After I got his other wrist tied in place, he wriggled – almost as if he wanted to escape. "Too tight?" I asked, worried I might have just destroyed the dominating energy I had over him – but I also didn't want to hurt him. "I can loosen them."
"No, they're perfect. I don't want to move right now. Keep going – you're doing great!"

Moving down to the other end of the bed, I tied his feet to the posts. I could see him get more excited, his cock being nearly fully hard by now. Seeing him just laying there, helpless and unable to move – for some reason, it ignited something in me, something that I never knew existed.
"What are you going to do to me?" he said playfully scared. I walked up to the head of the bed, again tracing my fingers along his body. His body started shivering again, but this time, it relaxed after a few seconds. I grabbed the shirt that I'd taken out to wear the next day, folded it up, wrapped it around his eyes and tied it in the back of his head. I started to kiss him softly, almost as if I wanted to test the waters, despite how far we got in the closet.
"Oh, come on," he exclaimed, "you can do better than that, can't you? Show me how much you love me – how much you *want* me!"
I jumped on the bed straddling his chest between my legs, leaned into his ears, and said "You bet I can, baby. This is just the beginning. You're mine tonight."

He moaned and wiggled slightly in anticipation as I started playing with his ears with my mouth, playfully nibbling on them and giving some tiny pecks all over his face as I worked my way to his soft, red lips and kissed him as passionately as I could. Continuing to kiss him, I started caressing his face, chest, and abdomen as much as I could. I couldn't resist feeling his body – it was right in front of me, and it was all mine, just like I've wanted for years – it was finally happening.

A bit of time goes by, the two of us passionately making out almost like we needed to share the air in both of our lungs to survive. Eventually, I start taking off all my clothes until we're both naked. He said "Please, master, touch me… touch me like you did in the closet! I want it!" I started giving his body loving pecks as I shifted my body down his, making my way down from his face to his neck, then to his chest, where I start passionately making out with his nipples, sucking on them, and occasionally giving them the odd nibble. I felt his heart beating faster, and I heard him beginning to moan out with pleasure. *He's really into this*, I thought.

I continued kissing his stomach, then his pelvis, as I grasped his hard cock and started stroking it slowly. "Ooh, that feels *so good,*" he moaned as I continued. "Faster, please! Faster!" he moaned, so I went faster and faster. I felt his cock pulsing in my hand, and I loved the feeling of my fingers sliding up and down over his head and shaft. I could feel myself getting hard now too.
"I'm going to cum!" he yelled.
For some reason, I yelled back "No! You don't cum until I tell you! I'm not done with you yet," almost like I was meant to be the dominant one all along.
"Okay," he moaned, "I'll try."

I stopped stroking his cock, observing him for a few seconds, giving him time for the pleasure to dissipate. I noticed he was breathing very hard, almost like he was gasping for air, shaking with

pleasure. His body was just lying there, unable to move. I saw his body calm a bit: he was no longer shaking, but I still heard his breath, still fast and deep. “How’s this, baby?” I asked, as I grabbed his cock and started sucking on it.
“Oh *yes* - more!” he moaned with pleasure, “*fuck*, that feels so good!” I went faster, sometimes taking his length deep in the back of my throat, choking on it. Every time I did, I could hear him moaning out in an extreme sense of pleasure as I felt his dick pulsing in my mouth. “Oh *yes* – *just like that*! Please keep going!” he moaned. I felt myself getting more aroused. I frequently teased him by stopping for a few seconds before continuing again, building up the sexual pressure of me controlling him and when he finally is *allowed* to reach climax.

I stopped sucking after a while and went down to the foot of the bed. I saw his body starting to shake as I constantly edged him. I started massaging the soles of his feet. His feet were surprisingly smooth and soft, and I didn’t want to stop touching them – ever.
“That feels so good,” he moaned. “So, you’re—,” he paused, breathing heavily. “You’re really into this?” he asked.
“I didn’t expect to be into this dynamic, but surprisingly I am—” I answered him, before switching back to my newfound dominant persona, “—and by the looks of that cock you’ve got there, you are too,” continuing to rub his feet.
“And you’re into feet?” he asked, moaning out in pleasure as I massaged him.
“Isn’t it obvious? I’m into smooth feet like yours.”
“You really *are* a kinky little nerd, aren’t you?” he teases.
“You like the feeling of a nice foot massage – tell me how this feels,” I told him as I started licking his soles and sucking on his toes. “This is—” he hesitated, moaning intensely with pleasure. “Oh my god, this is the best thing I’ve ever felt! I love it!”
“Well then, you’re in for a lot more – just wait until you see what else I have planned for you,” I told him seductively. He had a look of terror on his face, mixed with the intense pleasure, as he let out the cutest whimper. “Don’t worry, you’ll be fine. I won’t hurt you – that much, at least.”
“Please, keep going! Don’t stop!” he begs. I continued for a little bit longer, but I had other plans for him tonight. I wanted to make him my little sex toy.

I went around the bed, taking his blindfold off and releasing him from his restraints. “Now comes the fun part!” I exclaim. “Get on all fours,” I demanded.
“I love this new side of you – so dominant!” he said as he willingly complied with my order, getting on all fours and arching his back almost like he knew what I wanted, with his asshole front and center. “Like this, master?” he said submissively, playing the role he wanted for himself.
“*Just like that,* good boy! Now let’s get you ready,” I told him.
“What’s that mean?” he asked me, scared, as I knelt so I can get on the same level of his asshole.
“You’ll see…” I answered him, beginning to lick his hole. I heard him moan louder than he ever has so far as I stroked his asshole with my tongue, occasionally slightly thrusting it inside of him.

"*Oh fuck!* This just keeps getting better and better! Please keep going!" he moaned.
Eventually, I heard him excitedly moan "I think I'm ready to take you," he paused so he could catch his breath again. "But I've never done anything like this before – I've always been the top, so go slow – please," he begged.
"Of course, my little bottom boy, I'll treat you gently…" I teased him as I took the bottle of lube from my nightstand and covered his asshole and one of my fingers. I put my finger to his asshole, feeling it tighten. I applied a slight pressure and waited for it to loosen up. As I put my finger inside him, I heard him moan in pleasure, and almost in some amount of pain. Within a few seconds, his moans changed to purely moans of pleasure, and after a few minutes, I heard him moan "Can I – Can I please have another one?"
"Of course," I answered him as I took my finger out of him. I lubed up two fingers and put one inside of him, holding the second one outside. I felt his hole tighten again, so I waited a bit for it to relax before bringing the first finger out a bit so I could slide the second one alongside it. He once again moaned with pleasure, but this time without the sense of pain, almost as if he'd gotten used to it.

A while longer went by, and he exclaimed, almost as if the roles swapped, "I want your cock in me – now!"
"Ooh, now who's the dominant one?" I joked with him.
"*Please* – I can't wait any longer. I've been craving your cock in me all night," he begged.
"Well, if you put it that way…" I said. I grabbed him and flipped him on his back, his hard cock bouncing off his stomach. I heard him let out a small scream, almost like he wasn't expecting me to treat him this roughly – but he did say he wanted me to dominate him. He had a smile across his face, so I knew he liked it. I put on a condom from the bedside table, lubing up, before picking up his legs, pressing them up against his chest, and resting the tip of my cock on his asshole, waiting for it to allow me in. I pushed inside him as his hole let me in, and he moaned with pleasure. He rested his legs on my shoulders, embracing the position he was in. I started slowly moving in and out, every time pushing a little further inside him, with him moaning. He was eventually able to take my full length. I joked with him, "Wow, you're so tight – you really haven't done this before, have you?" but he couldn't answer; his voice was too busy moaning with pleasure.
"Faster! Harder! Give it to me!" he screamed. As I picked up speed, I heard him moaning louder and louder. "*Yes, yes, oh yes!* This feels so *fucking* good!"

No more than five minutes later, I felt like I was going to burst. "I'm about to cum" I moaned at him, while I'm moaning just as much as he is.
I heard him also moan out, "I want your load inside of me – please."
"Are you sure? That means I'll have to take off the condom," I asked him.
"Fuck the condom – just give it to me! Fill me up! I need it!" he yelled back. I quickly took my dick out of him, ripped off the condom I was wearing, and slid back inside him. I felt him tighten

his ass – which only heightened the sensation as I continued to thrust in and out of him until I eventually exploded inside of him, moaning with the most pleasure I've ever felt doing anything. I withdrew from him, slowly this time, and I said, "Let me see that load drip out of you!"
"Yes, master!" he said, submissively, as my load slowly seeped out of his ass. He pushed it out, almost as if it was a poison that he was trying to get out of his body.

"I suppose it's time for you to cum now," I reluctantly said, out of breath, as I returned to his pulsating cock and started sucking again. As I sucked it, I put a finger inside his ass, trying to find his sensitive spot. I heard him let out a loud moan, so I know I found it. As I milked him with my finger and sucked on his dick, I heard him yelp out of desperation, "Please – let me cum! Please!"
I took my mouth off his cock, and I passionately replied "Okay, you can cum, but I want to taste it." I put my mouth back on his cock and continued sucking, plunging my finger deeper into his special spot. "Oh *fuck*, just like that, oh *please* keep doing that! It feels so good!" he screamed. As he moaned with immense pleasure, I felt his hot cum enter my mouth. I kept sucking until it stopped coming out. I took my mouth off his cock, and I very quickly swallowed his load.

"Who's my good little bottom boy?" I teased him as I continued to lick the head of his cock.
"I – I am?" he said, his voice shaky.
"That's right, you are," I continued teasing him as I gave his cock one last kiss before laying in the bed, exhausted and out of breath from our *adventure*.
"That was awesome," I managed to say, pausing to catch my breath. "Thanks for being open to it"
"Anything for you," he replied, out of breath, yet full of passion at the same time. He took a moment to catch his breath, and anxiously asked "So does this mean we're boyfriends now?"
"Obviously," I answered him instantly, and with just as much passion. We started kissing as we laid in the bed, arms wrapped around each other.

"Before we go to bed for the night, can I ask you something a bit… *weird*?" I asked him.
"What is it?" he asked in response.
"Well, I don't want to ruin what we just did, so if you're not okay with this—" I started, as he interrupted.
"You just gave me the best sex I've ever had. Nothing's going to ruin it."
"Really? The best sex you've ever had? I highly doubt that. There's no way I – the shy, virgin nerd – could ever out-perform any of the people you've fucked before." I said, my hesitation to believe him evident in my voice.
"Well, it's true. Topping everyone's been fun and all, but it gets a bit… boring after a while. Bottoming for you feels…" he said, pausing as he tried to think of what to say. "… different – better, even. For some reason, it feels right. You may be a virgin nerd, but it's obvious you've studied the art of topping. So yeah, when I said that you gave me the best sex of my life, I meant

it 100%. And you're not a virgin anymore – I was lucky enough to take that from you – and I wouldn't want it any other way," he reassured me, before kissing me briefly. "What was it you wanted to ask me?"

"Well, I was wondering if you'd help me fulfill another fantasy of mine." I started, before he interrupted.
"Wow, you're so kinky, aren't you? I'd love to! What is it?" he teased me excitedly.
"Would you be willing to be my little…" I hesitated. "…my little *femboy*?" I finally had the courage to finish asking, quietly and filled with embarrassment.
"You mean… like wearing dresses and stuff?" he asked.
"Well, sure, that's part of it, but there's more to it than that. You've also got your cat-boys and dog-boys, and you've also got the ones who just wear thigh-highs and act all cute." I answered him.
"Which would you want?" he asked, as if his answer would change depending on what I said.
"I'm partial to a cute cat-boy, but it doesn't matter. Even just wearing some thigh-highs and acting all 'I'm so cute uwu' would be fine."

Initially, his face had a shocked expression, almost like everyone else's when they caught us groping each other in the closet. It was almost like he was saying "How dare you!" and "But I'm kind of into it" at the same time. He finally broke the silence that seemed like forever, though it was only a mere second.
"You know what, I'm down. For you, I'm willing to do anything. But only for you – nobody else can know."
"I'd expect nothing less," I responded, as I wrapped my arms around him, squeezed him tightly and gingerly kissed the top of his head.
"I'm going all-in though, so be prepared to have your own femboy jock bottom," he said.
"I look forward to it. Let's just cuddle for the rest of the night, I'm exhausted," I told him.
"You read my mind – Can I be the little spoon?" he asked me.
"Do you *really* have to ask, given what we just did?" I asked him. He got in front of me to cuddle. His head right below mine, our bodies just meshed. I followed the curve of his body with mine, and he shifted to fill the remaining gaps.

I put my arms around him and my leg over his, trapping him in a cage built with my body. I leaned in close to him and said, "I think we should do this again."
"Any time you want, baby – I'm yours. All yours," he happily said, "but next time, no condoms, okay?"
"Sure, no condoms," I started answering him, laughing. I leaned into his ear and whispered, "Just pure, hard and raw fucking."
"That sounds perfect," he said before pausing for a few seconds and asking, "Oh, and Cam?"

“Hmm?” I answered, trying to keep from moving so I could savour every second I could of holding his body.
“Congratulations on the doctorate – you’ve earned it, and you’ve made me proud – not like that means anything.”
“It means the world to me,” I said softly, as I cuddled up to him and slightly tightened my grip on him. “That’s all that matters.”
“I love you, Cam,” he said quietly.
“I love you too, Noah,” I said back, accepting his long-time pet name for me, even though I’d never let anyone else call me by it.

I ran my hand through his hair and petted his head softly. “Good night, baby,” I told him, gently kissing the top of his head.
“Good night,” he answered softly. I put my hand on his chest so I could rub it while he slept, but I felt him move it from his chest down to his dick. I wasn’t sure why he did that, but he didn’t seem to mind – and neither did I. I couldn’t see it, but I knew he had his signature grin on his face. The thought made me smile too. Holding him as tightly as I could, I felt both of our bodies relax as we drifted off to sleep, basking in the bliss that we just experienced.
